About

I am Akash Biswas a 2nd year Computer Science Student from Bennett University, enthusiast in Tech and Data. My specialization is Data Science .

Education

Bennett University   *August 2023 – May*
Bachelor of Technology in Computer Science   *2027*
- CGPA: 8.3/10.0

Projects

Employee Management System
- Build a robust System about Employee Management
- Mainly used **TKinter** Library and **JDBC** to connect to Database
- We can perform **CRUD** operations on the application.
- Tools Used: Java, mySQL.

Face-It
- Developed a Modern age Face Recognition System for Record of Attendance.
- Also trying to Add **Deep Learning** and **Neural Network** Concept for further advancements.
- Tools Used: Python {Libraries: OpenCV, OS, FaceRecognition.}

Black Money Analysis
- Did analysis on Black Money Transactions around the world.
- Found out inshits about the countries most involved in Black Money Transactions, people involved in Transaction.
- Also build a **predictive model** to found the amount of transaction in upcoming Years.
- Tools Used: Python {Libraries: Numpy, Pandas, Matplotlib, Seaborn, Regression }

Skills

Languages: C++, Java, C, Python(Numpy, Pandas, Matplotlib, Seaborn).

DataBases: mySql,PostgreSQL, MongoDB(NoSQL).

Technologies & Tools: Scikit-Learn, Tensorflow, powerBi.

Soft Skills : Communication, multilingual, team-work, Critical-Thinking

Certifications

Object-Oriented Programming with Java. **-Coursera**

Object - Oriented Data Structure in C++. **-Coursera**

Introduction to Modern Database System. **-Saylor**
